AT OTAY RANCH TOWN CENTER

My Heritage

...a tradition of excellence since 1956

I take great pride in my heritage. My grandfather started building his first homes in Southern California in 1956. My father followed in his footsteps shortly thereafter, and eventually included me in the home building process at the eager age of 12. I have never looked back. I have had the great privilege to experience virtually every aspect of the home building industry, from laborer to CEO. My family heritage and my experience encompass the development of more than 18,000 homes, including over 1,200 homes in Otay Ranch. As President and CEO of Heritage Building & Development, I am proud to maintain a family-owned and operated company that continues to be steeped in tradition, that provides superior and innovative design, and that exceeds all standards of the homebuilding industry.

Quality, Commitment, and Value

At Heritage Building & Development we care deeply about every aspect of the home building process, from the land we build upon to the materials we use. Our years of experience are reflected in the superior quality of craftsmanship, architecture and attention to detail that make our communities stand above the rest, both in design and value. Our commitment to excellence, and our attention to detail are crucial, especially in times of economic and environmental change, and we always have one finger on the pulse of advancement, ready to be the innovator. We take great pride in our work, from building the foundation of a new home to relying on our dependable customer service representatives, and pledge to continue our tradition of providing the highest quality homebuilding, both now and in the future.

Home...

Just the word can evoke a flood of memories, dreams, hopes and emotions. It reflects our childhood past, our family heritage, our values, our personal style. It shows what we have worked towards, what we have accomplished, how our family has grown and changed, and our expectations and plans for what is yet to come.

Home... it's comfort, family, friendship, warmth... it's belonging to a community, it's neighbors helping neighbors, it's a smile, a wave, a new baby, a loved one coming home.

Welcome to Suwerte, an extraordinary neighborhood of homes by Heritage Building & Development, where all the comforts of home are combined with beauty and charm.

CEO/ Owner
Heritage Building & Development
